

The right technology. The right support. The right results.

NEW MACHINE TOOLS

METAL FABRICATION

AUTOMATION

YOUR MACHINE TOOL SOLUTIONS PARTNER

Powering Productivity. Partnering for Success.

At the core of everything we do is an unwavering commitment to excellence.

We're proud to be the trusted partner manufacturers and industrial operations rely on for high-performance machine tools and expert support that keeps production moving.

OUR PRODUCTS

We stock a full range of new manual and CNC metalworking machinery, fabrication equipment, tooling, automation and accessories from the industry's most respected brands You Ji, EMAG, Amada, OTiNUS, Shibaura, Johnford, TTAPEC, Nexturn, KENT, Shimada, Enshu, Accutex, Seibu, Ocean Technologies, Precihole, Quicktech, and more.

OUR SERVICE & SUPPORT

Our partnership with **TECH CNC** gives our customers a complete service solution backed by some of the most experienced service engineers in the region. Serving Texas, Louisiana, Oklahoma & Arkansas, our team delivers fast response times with experienced technicians who know how to diagnose and repair your machinery right the first time. When your machine is down, every minute matters. That's why **MAS Machine Tools + TECH CNC** are committed to getting you back up and running—quickly, correctly, and with confidence.

Ask us about our **Preventative Maintenance Program**

Scheduled inspections, lubrication, alignments, and wear-part replacements to keep machines running at peak performance and avoid costly downtime.

THE RIGHT TECHNOLOGY. THE RIGHT SUPPORT. THE RIGHT RESULTS

As the manufacturing landscape evolves, we remain focused on innovation, reliability, and customer success. Our mission is simple ~ Provide the machine tools and expertise that empower manufacturers to operate at peak performance.

With a reputation built on integrity, results, and long-term partnerships, we are proud to be a trusted resource for machine tool solutions across the industry.

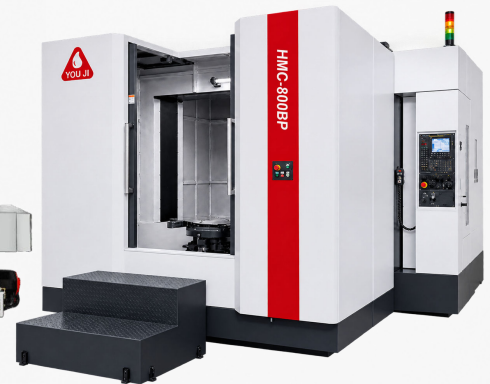

NEW MACHINE TOOLS

YOU JI

Established in 1978 and headquartered in Kaohsiung, Taiwan, You Ji has built a strong reputation for producing heavy-duty, highly rigid machines capable of handling large and complex workpieces.

- Horizontal Boring Mills
- Vertical Turning Lathes
- Horizontal Machining Centers
- Horizontal Lathes

Worlds best selling Vertical Lathes

NEW MACHINE TOOLS

APEC

APEC produces high quality 5-Axis CNC machining centers (horizontal, vertical, double column, and gantry type) designed for the Aerospace, Automotive and Mold & Die industries.

- 5-Axis Horizontal Machining Centers
- 5-Axis Vertical Machining Centers
- 5-Axis Double Column Gantry Machining Centers
- 5-Axis High Speed Bridge Mill

JOHN FORD

Established in 1984 in Taiwan, Johnford has become one of the leading CNC machine tool manufacturers around the world, with over 40 years of experience in designing and making high-quality precision machine tools.

- Vertical Machining Centers
- Gantry Machining Centers
- Large Horizontal Turning Centers
- Bridge Mills
- Multi-Axis Horizontal Turning Centers

NEW MACHINE TOOLS

EMAG

The EMAG Group delivers manufacturing systems that span the entire process chain, supported by technologies such as turning, milling, grinding, laser welding, and PECM. Serving both automotive and non-automotive sectors, EMAG uses its collective engineering expertise to offer modular, customized, high-precision solutions from its headquarters in Salach, Germany.

- Vertical Turning Machines
- Grinding Machines
- Vertical Machining Centers
- Gear Cutting Machines
- Laser Welding Machines
- ECM / PECM

QUICKTECH

For more than 25 years, Quicktech Machinery, a division of Tongtai, has built a global reputation for precision, innovation, and performance. As the former Hitachi Seiki OEM, Quicktech combines Japanese engineering heritage with advanced Taiwanese manufacturing to produce compact, high-productivity CNC mill-turn centers designed for today's competitive manufacturing environments.

- BTA Drilling
- Gun Drilling
- Honing Machines
- Lapping Machines
- Facing Machines
- Straightening Presses

NEW MACHINE TOOLS

NEXTURN
SWISS TURN LEADER

NEXTURN

Nexturn produces Swiss CNC lathes which are engineered to maximize accuracy and economy in the production machining of precision parts.

- Multi-Axis (7, 8, 9 and 11-Axis) Swiss Style CNC Lathes

 SH/MADA

SHIMADA MACHINE TOOL DRIVES COMPANY

Shimada Machine Tool Drives Co., Ltd., founded in 1947 in Maruyama-cho, Gamagori City, Aichi Prefecture, Japan, was born from the Shimada family's vision to pioneer their own high-performance multi-spindle machine technology. The name "Shimada" became synonymous with engineering excellence and cutting-edge drives in the world of machine tools.

- Multi-Spindle Lathes

NEW MACHINE TOOLS

ENSHU

Enshu machines, headquartered in Hamamatsu, Japan, are known for their legendary build quality, which unlocks new levels of productivity for the shops who use them, allowing our customers to achieve consistently accurate results at competitive prices.

- Up to 5-Axis Horizontal Machining Centers
- Up to 5-Axis Vertical Machining Centers

KENT

Kent USA provides precise and dependable machine tools including grinders, lathes, mills, EDMs, and CNC systems to manufacturers across the U.S. and abroad. Based in Tustin, California, the company has delivered quality and service for 45+ years.

- Radial Arm Drills
- Horizontal Boring Machines
- Flat Bed Lathes
- Vertical Turning Lathes
- Grinding Machines
- Laser Cutting Machines

NEW MACHINE TOOLS

Seibu
Wire EDM since 1972

SEIBU

Seibu's wire EDM machines are equipped with multiple functions, achieving high productivity and high precision.

- Ultra Precision Wire EDM Machines

Accutex **ACCUTEX**

With over 26 years' dedication to innovation as well as research and development, the Accutex team has been developing and mastering the cutting edge techniques in the WIRE CUT EDM field, thus establishing the company's core competition power in the stage of international business.

- Wire Cut EDM's
- Die Sinker EDM's

NEW MACHINE TOOLS

OCEAN TECHNOLOGIES

OCEAN specializes in EDM drilling machines for molding and precision applications, including turbine blades, automotive parts, tooling, aerospace, and watch components. Its 3-5 axis CNC drilling EDMs offer advanced performance, supported by the company's rigorous quality control.

- Drilling EDM Machines

PRECIHOLE

At Precihole Machine Tools, we take pride in our deep expertise across every machine we manufacture. With decades of experience and innovation in deep hole drilling, gun drilling, BTA drilling, skiving & roller burnishing, and other precision machining solutions, our dedicated team brings unmatched knowledge to each project.:

- BTA Drilling
- Gun Drilling
- Honing Machines
- Lapping Machines
- Facing Machines
- Straightening Presses

NEW MACHINE TOOLS

AMADA

The AMADA Group is a global manufacturer of metalworking machinery that develops, manufactures, sells, and services machines, peripheral equipment, tooling, and cutting tools and software for fabricating metal sheets.

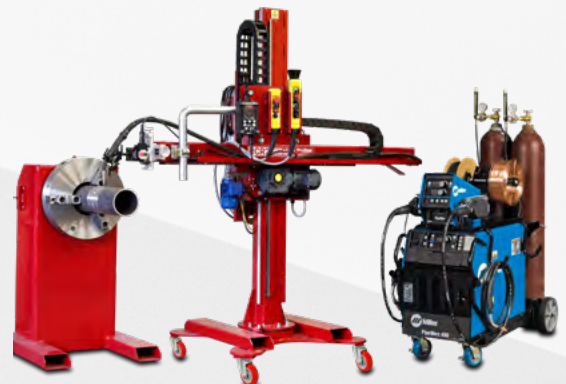

- Horizontal Post Cutting Saws
- Horizontal Scissor Style Saws
- Horizontal Mitering Saws
- Vertical Tilt Frame Saws
- Grinders
- Band Saws
- Carbide Circular Saws
- Milling Machines
- Iron Workers

KEY PLANT AUTOMATION

Key Plant Automation designs, manufactures and supplies a wide range of innovative and accomplished welding automation products, along with exclusive engineering solutions for customers all over the world.

- Welding Positioners
- Column & Boom Manipulators
- Welding Rotators
- Headstocks & Tailstocks
- Side Beam Welders
- Seam Welders
- Pipe Fabrication
- Floor Turntables

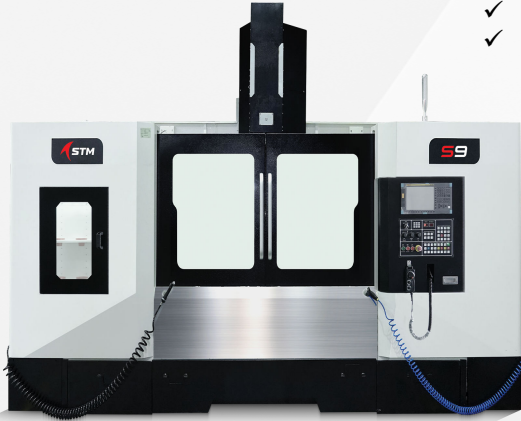

NEW MACHINE TOOLS

STM

Built for production, engineered for versatility and performance.

- ✓ Standard on all S Series
- ✓ 15" Screen Fanuc OiM-F Plus Conversational Control
- ✓ Direct Drive Spindle – Liquid Cooled
- ✓ 30-Tool Arm-Type ATC
- ✓ 12,000 RPM Spindle
- ✓ Lift Up Style Chip Conveyor
- ✓ High Pressure Chip Flushing
- ✓ Linear Guideways
- ✓ Double Nut Pre-Tensioned Ballscrews

OTINUS

At Otinus, we know that the key to success is reliability and professionalism at every stage—from the first contact, through expert consulting and intensive training, to fast after-sales service. Our “We Serve You” philosophy ensures that your needs are our priority. Our dedicated team of experts and modern support tools allow you to focus on growing your business.

- Fiber Lasers
- Tube Cutters
- Combo Lasers
- Press Brakes
- Shears

The right technology. The right support. The right results.
